

# Mark Bonner

Senior Front-End Developer

## DIGITAL EXPERIENCE

### **TuesdayAfternoon Media Inc.**

— eLearning Developer & Production Analyst

2007 - 2017 / 2018 - 2026, Toronto, Ontario

Senior Front-End Developer with 15+ years of experience shipping enterprise-grade platforms within **Agile/Scrum** environments for people like Citibank, Ontario Tobacco Research Unit, Deckaid, TD, and Blackstone. I specialize in web-based training and learning, focusing on building accessible and high-performance interfaces. I combine the precision of a former ER nurse with modern AI-augmented workflows to deliver clean code and reliable deployments under high-pressure deadlines.

### **Deckaid 501(c)(3) Exhibition Website**

— Project Lead & Web Developer / Designer

2024 - present, New York

Co-designed, developed, and launched a new official website for Deckaid, a volunteer-run 501(c)(3) nonprofit showcasing retrospective skateboard art to raise funds and awareness for youth-centered community organizations. Led front-end development, focusing on layout optimization, elegant UI/UX design, and Squarespace accessibility enhancements. Utilized a mixed-stack architecture including Squarespace, Vue.js, HTML, and vanilla JavaScript, resulting in a cohesive digital platform that drives community engagement and promotes the organization's influential history and social impact since 2013.

## NURSING EXPERIENCE

**Bellwood Health Services** — Toronto 2017 - 2018 - Registered Nurse — (*addiction / mental health*)

**Telehealth Ontario** — Toronto 2004 - 2009 - (RN) Clinical Team Manager — (*teletriage*)

**Sunnybrook Hospital** — Toronto 2004 - 2009 - Registered Nurse — (*trauma / emergency*)

## EDUCATION

**Advanced Javascript** — Juno (formerly Hacker You) - 2018 - Learned advanced programming concepts.

**Registered Nurse** — George Brown/TMU - 1998 - 2001 - Clinical Distinction in 6/7 rotations. GPA 3.98

1504 Davenport Rd  
Toronto, Ontario  
(416) 899-4095

## SKILLS

**JS Frameworks:** Expert in Vue/Quasar and responsive, API-driven architecture.

**Agile / Team Workflows:** Experienced in Scrum rituals, sprint cycles, Kanban workflows, and cross-functional collaboration.

**Git Workflow:** Proficient in GitHub, rigorous PR reviews, and CI/CD pipelines - focus on automating repetitive tasks.

**Accessibility:** Deep expertise in WCAG compliance and inclusive UI/UX.

**Process:** Leveraging AI to accelerate development while maintaining enterprise-grade precision.

## SELF-STARTER

Proven ability to work independently, manage multiple projects simultaneously leading to timely, accurate results. My experience as an RN has proven extremely valuable in developing prioritization and documentation skills.

## CROSS-FUNCTIONAL TEAMWORK

Experienced in driving intuitive functionality across software projects by collaborating with Product Management, Client-facing teams, and Executive leadership. Synthesized input from QA, Developers, and LXD to ensure seamless feature delivery and high-quality user experiences.
